ORV Trail Request

To request that the National Park Service evaluate a trail please fill out the following. If at all possible please include a printed map of your proposed trail route. It is also possible to provide route information as .kmz files (Google Earth format). It is important to provide us with the GPS coordinates of where your suggested trail departs the primary trail network. If you have any questions or require assistance, please contact Bob DeGross at 239-695-1107. You may email requests, GPS tracklog data and .kmz files to bob_degross@nps.gov, or mail to Big Cypress National Preserve, c/o Bob Degross, 33100 Tamiami Trail East, Ochopee, FL 34141

K	equester Info	rmation
1.	Name:	
	Address:	
	Phone #:	
	Email:	
2.	Please answer	the following questions:
	a. What are th	ne GPS coordinates of the site where your requested trail leaves the primary trail network?
	b. If known,	what is the latitude and longitude of the destination at the end of the requested trail?
	c. What wou	ld this destination be used for?
In		ninable route do you suggest to reach the destination? (Provide gps tracklog or .kmz file if possible of file if possible.)

Definitions:

- **-Destinations:** private property, campsites, recreational destinations, specific destinations.
- **-Primary Trails:** those trails emanating from the designated access points and providing recreational access within the Preserve. These would be the principal ORV routes.
- **-Secondary Trails:** secondary trails would branch off of the primary trails and would receive less use. Secondary trails accessing private property would be limited to use by that landowner if no other destination existed along that route. Secondary trails for public recreational use accessing features such as designated campsites would extend for a short distance from the primary trail.
- -Sustainable Trail: a trail that will satisfy the needs of the user, provide for protection of the environment, be cost efficient to manage/maintain, and have clear and concise management objectives.
